Commissioner for Patents

The amendment filed on 7/17/03 which amend all claims under consideration changing the claimed subject matter from a ligand profile to a set of ligands, which are drawn to a non-elected invention. This is deemed non-responsive (MPEP § 821.03). Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. See 37 CFR 1.142(b) and MPEP § 821.03. The newly amended claims are not readable on the elected invention because the amended claims are drawn to a set of polypeptide ligand that are independent/separate inventions from the elected claims, which are drawn to ligand profiles.

Since the above-mentioned amendment appears to be a bona fide attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.

Papers related to this application may be submitted to Technical Center 1600 by facsimile transmission. Papers should be faxed to Technical Center 1600 via the PTO Fax Center located in Crystal Mall 1.
